Many of the mounts feature a unique tilt/swivel capability, which allows the monitor to be swiveled for portrait or landscape viewing and tilted up or down. This tilt/swivel feature ensures the proper viewing angle in any application. PMCLNB mounts are designed to support up to 175 lb. (79.38 kg). PMCL2 mounts are designed to support up to 50 lb. (22.7 kg).

PMCLNBWMF, PMCLNBWMT, and PMCLNBWMS mounting solutions

The PMCLNBWMF flat wall mount, PMCLNBWMT tilt/swivel mount, and PMCLNBWMS articulating arm wall mounts are designed for use with larger flat panel monitors. The PMCLNBWMF and PMCLNBWMT mounts supports a mounting pattern from 200 x 200 mm to 815 x 525 mm. The PMCLNBWMS mount supports a mounting pattern from 200 x 200 mm to 735 x 518 mm. All three mounting solutions support a weight capacity of up to 175 lb (79.38 kg).

PMCL2-WM, PMCL2-WMT, and PMCL2-WM1A mounting solutions

The PMCL2-WM flat wall mount, PMCL2-WMT tilt/pivot mount, and PMCL2-WM1A articulating arm wall mounts are designed for use with smaller flat panel monitors. These PMCL2 mounts support mounting patterns from 75 x 75 mm up to 200 x 200 mm (with included adapter plate) and a weight capacity of up to 50 lb (22.7 kg).

PMCL2-CM, PMCL2-CMPS, and PMCL2-CMPL mounting solutions

The tilt/swivel PMCL2-CMPS and PMCL2-CMPL allow smaller flat panel monitors to be mounted from the ceiling. These mounts are equipped with an adjustable telescoping pole. The PMCL2-CM is a similar ceiling mount that does not include a pole allowing the use of any length of 1.5-in. NPT threaded pipe in

applications with higher ceilings. These PMCL2 mounts support mounting patterns from 75 x 75 mm up to 200 x 200 mm (with included adapter plate) and a weight capacity of up to 50 lb (22.7 kg).
